

The labyrinth of the hundred reeds

The legend tells that a lost little hare hid in this labyrinth to escape from the clutches of a peregrine falcon. Confused by all the reeds, the hawk decided to leave and the little hare was able to get out thanks to her orientation skills.

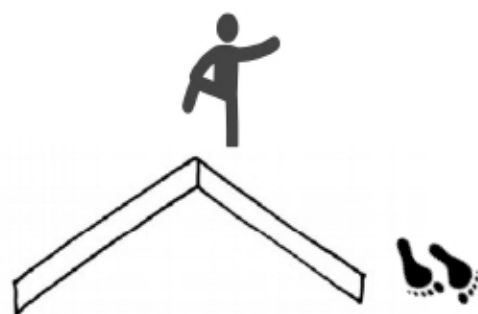

Will you also be able to reach the exit?

The balance beam of desires

This beam was found by Incantina the Little hare at a market of ancient and magical things in Lamporecchio. The story tells that walking on it for three times thinking intensely about a desire will make the desire true within a week.

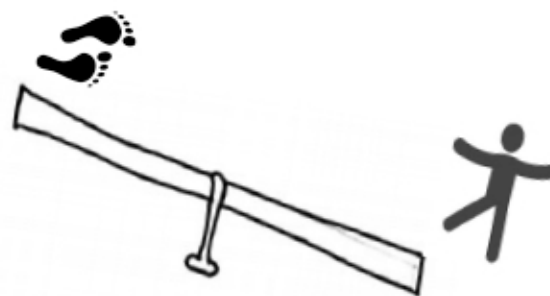

Who knows if that's true ...

The tilting axis of friendship

This special game has to be played in two.

Invite a friend, because together we have more fun, you will help each other to reach the stars!

The path of brilliant ideas

It looks like a common beam, but the wood with which it is produced favors brilliant ideas!

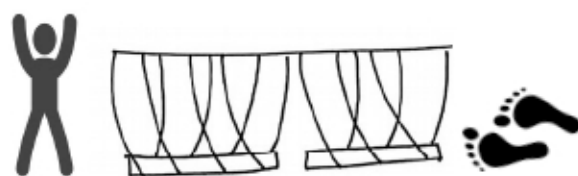

Walk on it slowly, pausing at every bend, that's where you will receive enlightenment!

The Larciano bridge

A few years ago, during a trip abroad, Incantina the Little hare, who is a great traveler, madly liked a Tibetan bridge and decided to build it in her garden.

And after so much work, here it is!

THE CIRCLE OF SKILLS

(Il cerchio delle abilità)

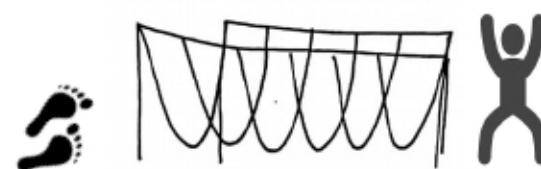

BY Incantina The Little Hare

The Tibetan bridge

Only the most skilled and brave people will be able to cross it!

The Tibetan bridge is made of only ropes and is suspended over a meadow of quicksand, will you be able to keep your balance?

The Marsh Oasis

The Marsh Oasis, located in the Fucecchio Marsh Nature Reserve, is the home of a special duck, called Alzavola.

Its feathers are colored as a rainbow!

Cross the oasis in Summer because in Autumn and Winter it turns into a swamp!

Do you feel like a sportsman full of energy?

Here is what you need for the Circle of Skills:

A good pair of sneakers to run outdoors

and a great desire to have fun

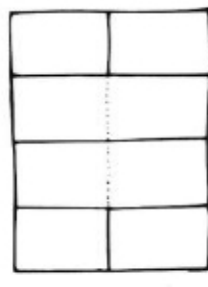

Let's go!

Go to the bridge that connects our world to the world of Incantopoli, there you will find a wooden panel on which the map is drawn.

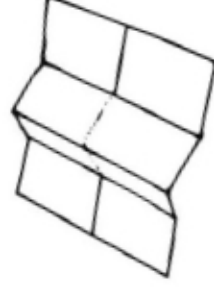

Look for the Circle of Skills and begin your adventure!

To get started, you will need a small notebook. Here you will find the instructions to build it.

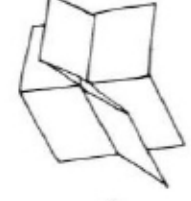

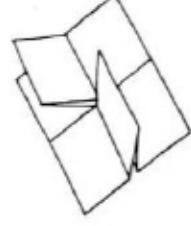

Turn this sheet over and place it on a table, you will notice that there are some lines. You have to fold this sheet along those lines.

Once you've made the folds, pull up and join the middle part, then cut along the dotted li line.

Now play a magic game to fold your new notebook!

Before getting out of the Labyrinth of the hundred reeds, let's see if you can get out of this!
